

The Seminole Scholars T32 Database Program is managed in collaboration between the FSU CTSA and the Vice President of Research.

The program supports faculty applying for NIH T32 Institutional Research Training Grants.

T32 submissions planned for 2026 are being led by: Drs. Nicole Ennis, Angelina Sutin, Patrick Stover, and Regan Bailey.

The National Institute of Health (NIH) Institutional Research Training Grants (T32s) enable institutions to recruit and train individuals at the predoctoral and/or postdoctoral-level in a specific shortage area. The goal of these grants is to prepare trainees for careers that will have a significant impact of the health of the United State public.

This program has supported two T32 grant applications to date:

- FSU MPIs: Drs. Lisa Hightow-Weidman (Nursing), Sylvie Naar (Medicine), and Jing Wang (Nursing)
- FSU PI: Dr. Carla Wood (College of Communication Sciences and Disorders)

The Seminole Scholars T32

Database Program is a new service at FSU that maintains information on potential mentors and trainees. Currently, the program offers:

- Mentor Identification
- T32 Data Table Development
- Data Table Review/Revision

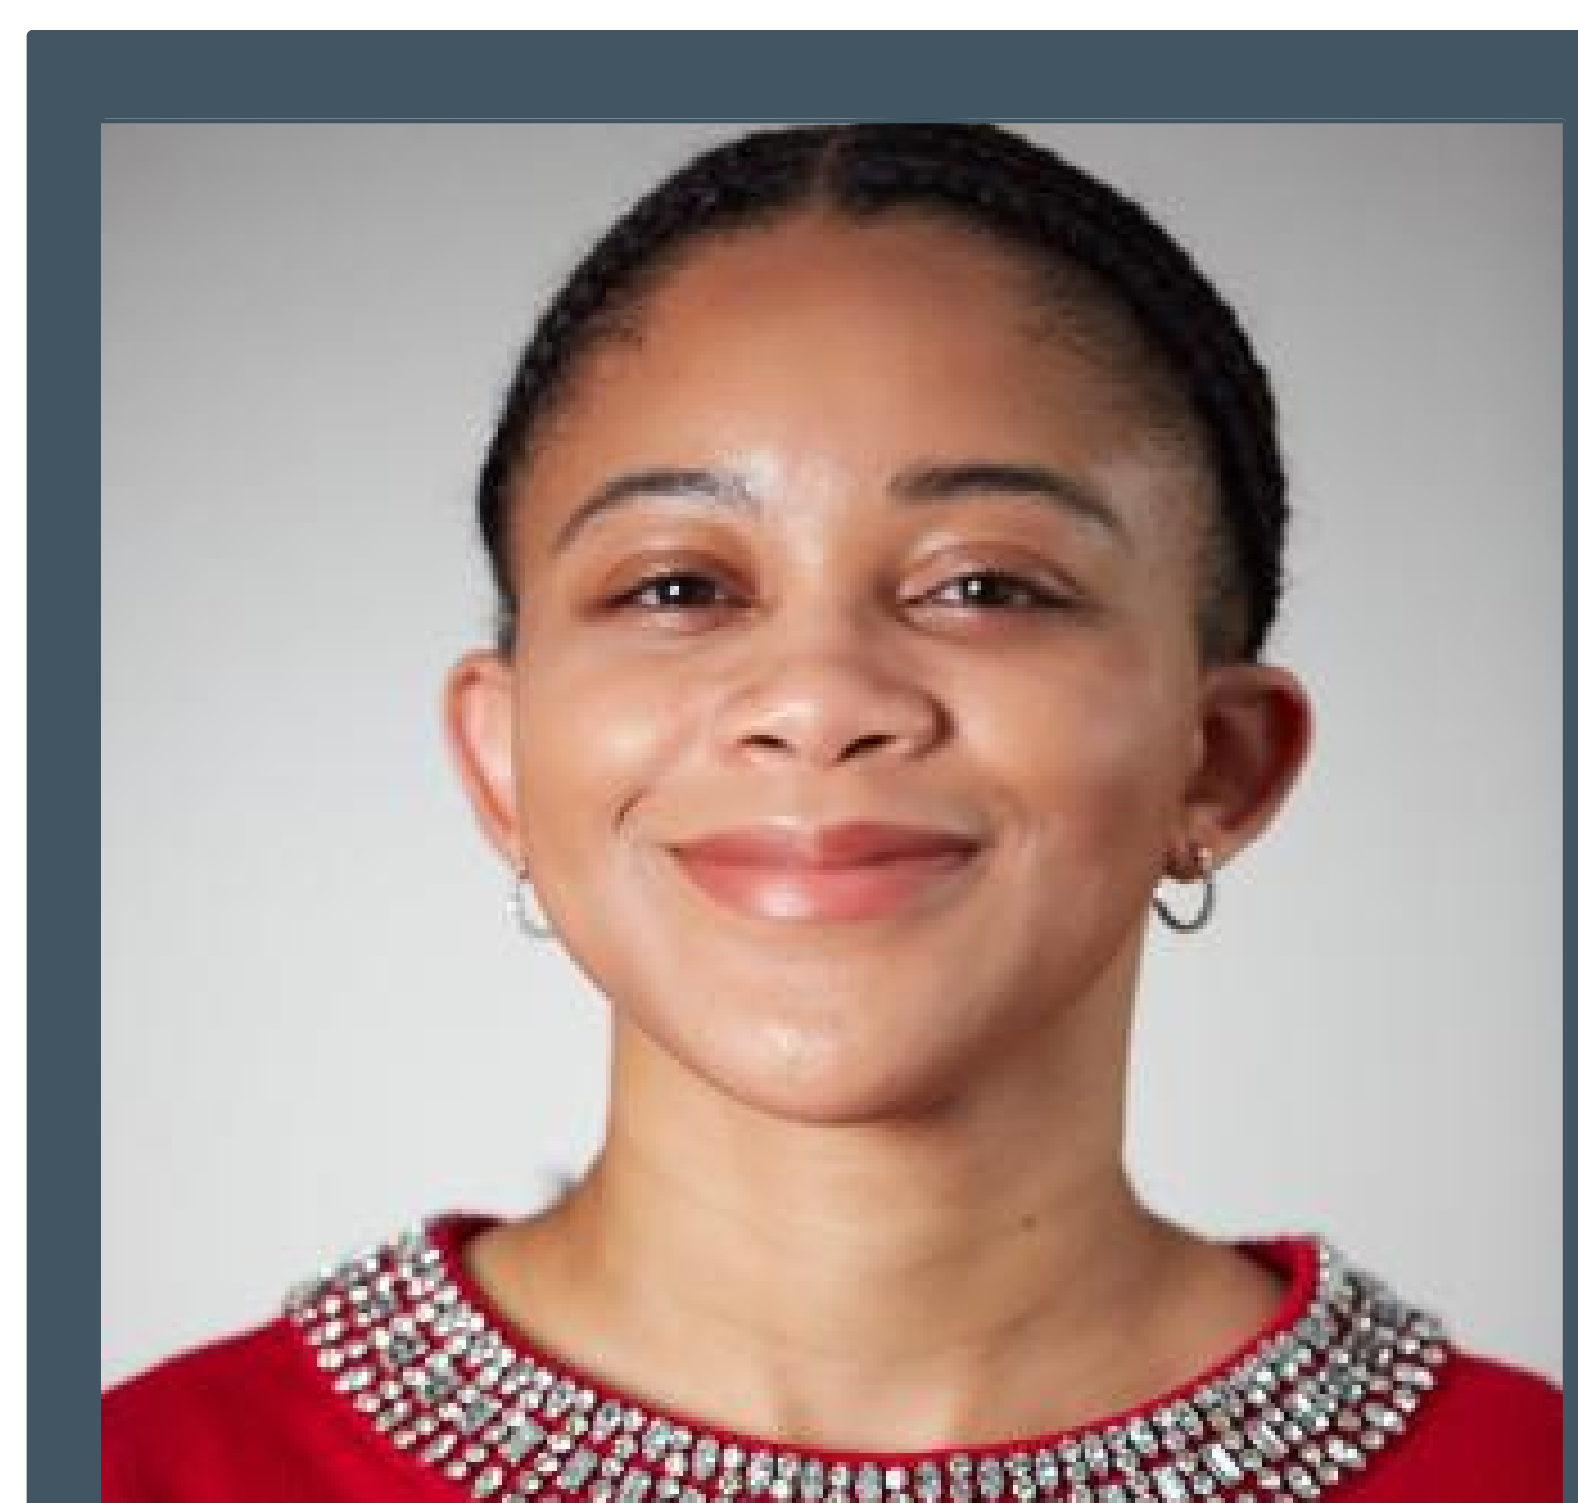

Faculty interested in these services may email Andrea Johnson at ajohnson33@fsu.edu for assistance. We require at a minimum 3 months of lead time for mentor identification and data table revisions and at a minimum 4 months for developing data tables from scratch. For more information, please visit the CTSA website.

Example of Seminole Scholars T32 Database Faculty and Scholar Profiles

The screenshot displays the database interface with several tabs and sections:

- Graduate Trainees:** Lists individuals like Alyssa Vecchio, Bryce Stamp, Nicole Kelly, and Seul Ki Choi with their degrees and dates.
- Lisa Hightow-Weidman Profile:** Shows her as a Distinguished & Endowed McKenzie Professor in the College of Nursing, with details on her training grants and research grants.
- Postdoctoral Trainees:** Lists individuals like A. Lina Rosengren, Brittany Lane, Dan Song, Daryl Mangosing, and Ibrahim Yigit.
- Julia Brasileiro Profile:** Shows her as a Postdoctoral Trainee with details on her terminal degree data, platforms, and training records.
- Terminal Degree Data:** A table for North Carolina State University with fields for First, Middle, Last, Gender, Country, Ethnicity, Disability, and Disadvantage.
- Training Records:** A table showing postdoctoral trainees and their mentors.
- Mentors:** Lists postdoc mentors like Kathryn Muessig.
- PDIPs:** A section for Postdoctoral Institutional Development Programs.
- Professions:** Lists professions and their associated institutions.
- Training Grants:** A table for training grants.

As of October 2025, there are 90 faculty and 400 scholars in the Seminole Scholars T32 Database

Andrea Johnson, MPH
Program Coordinator

We would like to give a special thank you to the University of Florida CTSI and Johnny Nguyen for providing the framework for the Seminole Scholars Database

THANK YOU!
